

**JAMES W. (WES) JORDAN, P.E., S.E.**  
**VICE PRESIDENT - NATIONAL PROPERTY DIVISION MANAGER**

Mr. Jordan has over 30 years of engineering experience with the design and evaluation of buildings and structures. He graduated from Texas A & M University in 1985 with a Bachelor of Science degree in Civil Engineering, and from Purdue University – Calumet in 2005 with an MBA. Mr. Jordan is a licensed Professional Engineer in 12 states, and a licensed Structural Engineer in Illinois. His engineering consulting experience spans various industries including residential, commercial, municipal, industrial, power generation, agricultural and manufacturing.

Since joining Rimkus Consulting Group, Inc. in 2002, Mr. Jordan has conducted hundreds of forensic engineering investigations for insurance companies, law firms, construction firms and property owners. He has expertise evaluating buildings and structures for various forms of damage, including: construction defects, moisture intrusion / water damage, structural failure, foundation movement, construction vibration and blasting/explosion damage, storm and earthquake damage, and fire damage. Mr. Jordan gained testifying experience while at Rimkus, qualified and subsequently testified in federal court.

Mr. Jordan has authored or co-authored 10 technical papers for the American Society of Civil Engineers and given numerous presentations on forensic engineering topics to the legal and insurance communities. In 2014, Mr. Jordan was appointed by former Governor Mike Pence to serve on the Indiana Fire Prevention and Building Safety Commission; and recently re-appointed by Governor Eric Holcomb to continue as a Commissioner through 2022. He also serves on the Indiana Structural Engineers Association's Board of Directors (past president).
