

John Postava

John Postava is currently serving as President of RYZE Claims Solutions – Flood Claims Solutions Division as well as President and Co-founder of SIMSOL Software.

As President of The RYZE Flood Solutions Division, John has trained and managed hundreds of flood and catastrophe adjusters in some of the largest catastrophic events over the past 35 years.

John has been a Florida state licensed and NFIP certified flood adjuster since 1979. In the late 1980's John and his brother, Frank, developed and marketed one of the first flood estimating software programs for adjusters, SIMSOL, which is used by thousands of catastrophe, daily property and flood adjusters and contractors today.

John is a certified trainer for the National Flood Program and has taught both standard NFIP certification courses as well as adjuster-mentee training seminars.

John is also the 2014 past President of the National Association of Catastrophe Adjusters and 2016 past President of the Flood Professional Claims Association.

John currently resides in Orlando, Florida and Los Angeles, California with his wife, Jan, and their two dogs, Sadie and Harley.
